Subject: 2009 U - New Issues advice to states - Land rich provisions

John

Queensland is not in a position to provide specific answers to the questions raised in your letter dated 19 December 2008.

Of some concern is that if the Commission reduces Western Australia's Stamp Duty on Conveyance revenue by the amount raised under the land rich provisions, it would set a precedent that states may seek to utilise to influence their share of GST revenue.

regards
