

SOUTH AUSTRALIA – NEW ISSUES 2017 UPDATE – IHPA DATA

South Australia has no objection to the staff recommendations:

- to use 2015-16 IHPA data in the 2017 Update when they become available in January 2017
- for the ED component in the Health category, use the number of Public Hospital Establishment - Emergency Department occasions in 2013-14 to estimate the number of Emergency Department occasions for hospitals not covered by the ED National Minimum Data Set
- continue to use this estimate until the next methodology review or until Independent Hospital Pricing Authority advises that the ED National Minimum Data Set data is sufficiently comprehensive.

Regards

Mark Collins

Manager, Intergovernmental Relations

Department of Treasury and Finance – South Australia
